

## How to Calculate Your DP&L Bill Non-Residential (Rate 137, 157)

You will need:

To **verify you are on Rate 137 or Rate 157** - find the section near the middle of your DP&L bill labeled "Usage Detail", below which the column titled "Rate" should read 137 or 157.

Your monthly kWh Usage and billing demand is to the left of your Rate number on your DP&L bill. See example below.

Usage Detail										
Service	Meter	Billing Period		Billing Days	Meter Reading		Multiplier	Usage	Rate	Rate Description:
	Use	From	To		Previous	Current				
Electric	Actual	06/18/17	07/18/17	31	91439	93242	1	1803	137	Secondary Single Phase
Your billing demand is								11.9		

To verify that your bill is within a 25 to 35 day billing cycle cycle (also on your DP&L bill) - under "Usage Detail" find the column titled "Billing Days". NOTE: this rate worksheet will not correctly calculate bills outside of the 25 to 35 day billing cycle. Net Metering customers see second tab for rates.

For Rate 137 or Rate 157, you will need to find the total electric usage for the month and the billing demand. For customers on Rate 157, you will need to adjust your kWh less 1%.
