

SMALL BUSINESS DIRECT INSTALL PROGRAM.

On-Site Energy Assessments and Free Product Installations.

On-the-spot savings for your business

Control costs and save energy with Dayton Power & Light's (DP&L) Small Business Direct Install Program. DP&L helps your business cut costs with a complimentary energy assessment and the installation of no-cost, energy-efficient products.

Free energy savings in two easy steps

1. Energy assessment

An Energy Advisor conducts an on-site assessment and provides customized recommendations to help your business save energy, and where applicable, identifies other DP&L programs and incentives you could qualify for.

2. Direct installation of energy-saving products

During your assessment, the Energy Advisor installs complimentary products that will give you instant energy savings.

Complimentary products you may receive:

	Estimated annual savings
• LEDs	\$13-\$21
• Occupancy sensors	\$23
• Programmable thermostats	\$116
• LED exit sign retrofits	\$7
• Pre-rinse spray valves	\$650
• High-efficiency showerheads	\$37
• Faucet aerators	\$13
• Water heater pipe insulation	\$11
• Salon sprayers	\$226

ELIGIBILITY

To participate, you must be a DP&L business customer with an active DP&L service ID at the location of installed equipment. Eligible businesses may include, but are not limited to: schools, restaurants, hair salons, shopping centers and churches.

APPLYING IS EASY

Speak to a program representative to see if you qualify and to schedule an assessment. Call the program's dedicated Outreach Specialist at **937-802-9328** or visit dpandl.com/save-money/business-government/.

The average participant could save about \$750 through energy-efficient products received in this program.

The DP&L Small Business Direct Install Program is administered on a first-come, first-served basis. Availability of specific energy-saving measures may vary.

Energy savings calculated at estimated utility rate of \$0.085/kWh.

How Much Could You Save?

Example energy-saving scenarios for different business types

Retailers

Average savings: 8,900 kWh or \$750 per year

Top projects: 4 ft. LED replacement tubes, LED PAR38 lamps, LED BR30 lamps, LED A19 lamps

Additional benefits: Improved light levels and quality, uniform color, reduced maintenance, recognition for commitment to energy efficiency

Restaurants

Average savings: 7,700 kWh or \$650 per year

Top projects: Pre-rinse spray valves, 4' LED replacement tubes, LED PAR38 lamps, LED BR30 lamps, LED A19 lamps

Additional benefits: Improved light levels and quality, uniform color, reduced maintenance, recognition for commitment to energy efficiency, food may look more appealing

Offices

Average savings: 7,900 kWh or \$670 per year

Top projects: 4 ft. LED replacement tubes, LED PAR38 lamps, LED BR30 lamps, LED A19 lamps

Additional benefits: Improved light levels and quality, uniform color, reduced maintenance, recognition for commitment to energy efficiency, improved worker productivity, elimination of fluorescent light flicker
