

How to Calculate Your DP&L Bill Non-Residential (Rate 188, 198)

You will need:

To **verify you are on Rate 188 or Rate 198** - find the section near the middle of your DP&L bill labeled "Usage Detail", below which the column titled "Rate" should read 188 or 198.

Your monthly kWh Usage is to the left of your Rate number on your DP&L bill. See example below.

Current KVAR Demand										

To verify that your bill is within a 25 to 35 day billing cycle (also on your DP&L bill) - under "Usage Detail" find the column titled "Billing Days". NOTE: this rate worksheet will not correctly calculate bills outside of the 25 to 35 day billing cycle. For Rate 188 or Rate 198, you will need to find the total electric usage for the month and the billing demand. For customers on Rate 198, you will need to adjust your kWh plus 1%.

To obtain your monthly Kvar Usage, on your DP&L bill - - under "Usage Detail" find the column titled "Usage".
